

Council of Governors' meeting, 19th September 2013

Agenda item 55a/13: Annual Report from the Editorial Advisory Board

EAB is a committee that publishes The FuTure magazine for its members.

The publication allows Governors, who have been elected by its members, to communicate information about the hospital.

We have budget this year to issue two editions of the magazine. The first has already been circulated and we are at present in the process of gathering articles for the second edition which we would like to have available for circulation by the end of the year.

We are always looking for new, fresh ideas that our members feel is of importance, so please let us know of your suggestions – they will be most welcome.

Hilary Seago
Chair,
Editorial Advisory Board
