- a. Prostatectomys*
- b. Cystectomys*
- c. Nephretomys*

Please see data sheets below

**Average Length of Stay - 01/11/2010 - 30/04/2011**

Procedure	Average Length of Stay
Nephrectomy and excision of perirenal tissue	7.00
Nephroureterectomy NEC	10.29
Nephrectomy NEC	7.85
Unspecified partial excision of kidney	7.00
Cystoprostatectomy	16.36
Cystourethrectomy	13.25
Cystectomy NEC	24.20
Total excision of prostate and capsule of prostate	4.50
Retropubic prostatectomy	4.67
Other specified open excision of prostate	5.00
Unspecified open excision of prostate	5.75

**Readmissions - 01/10/2010 - 31/03/2011**

Procedure	Number
Nephrectomy's	3
Cystectomy's	5
Prostatectomy	0

Both readmissions (Within 30 days) and Average Length of Stay are calculated where they were the primary procedure. Please note - that the two parts cover slightly different time periods, this is due to readmissions requiring at least a 30 day 'window'.
