

August 2011

*Many thanks for your response to our recent FOI Request. I've now reviewed this and have some questions which I hope you can clarify. I have attached the spreadsheet you kindly completed and have highlighted some cells in yellow which I would like either further clarification on or completion of data in those cells as they have been previously left blank. If you do not know the relevant data, then I'd be grateful if you can please state "Unknown" or if it is not applicable then please state "N/A".*

*In summary, my questions are as follows:*

- Please could you provide the names of your data network and telecoms network providers?*
- Please provide a version number for your main community system.*
- Please provide detail of the installation date, no. of licenses and when you plan to replace the contract for the cardiology system.*
- Provide the contract expiration date and when you plan to replace the contract for the oncology system.*
- Identify the no. of concurrent users, contract expiration date and which other systems the first business intelligence system integrates with.*
- Which other systems does the document management system integrate with?*
- What is the contract expiration date and when do you plan to replace the contract for the digital dictation system?*
- Which other systems do the two financial systems integrate with? Please also identify within the spreadsheet whether the trust outsources it's financial systems, and if so to whom?*

Please find below your spreadsheet which has been completed with the information we hold.

<b>Child Health System</b>	1	-	-	-	-	No system installed	-	-	-	-	-	-	-	-	-	-
