

September 2011

*I am informed by the Department of Health that it does not hold details of the above centrally and that I should contact individual Trusts for the data.*

*1. Could you please let me know how many Stryker Trolleys are in use in your Trust's Medical and Surgical Assessment Units.*

The Trust does not use Stryker Trolleys in either the medical or the surgical assessment units.

*2. Also, what is the maximum length of time that patients are kept on these trolleys.*

Please see our response to question 1.
