

November 2011

*1. Could you please let me know the following about your IT Infrastructure?*

*a. Make of Storage Area Network (SAN)*

Hewlett Packard

*b. Size of SAN*

30TB

*c. Age of SAN*

3 years

*d. Estimated growth over the next 5 years*

The estimated growth is difficult to determine as it depends on Trust system needs. Normally the SAN is refreshed every 5 years with at least double the storage (budgets depending).
