#### Infection Prevention Service

The Deputy Director of Infection Prevention & Control and the Infection Prevention and Control Team are health professionals trained in infection and prevention control. They advise the ward staff on all aspects of patient care when infection may be a risk.

If you have any questions about the risk of infection associated with your surgery/procedure/treatment please ask the nurse/midwife or doctor caring for you they will be pleased to discuss any concerns you have. If you have concerns regarding infection or infection prevention please speak to the nurse looking after you. You can also discuss your concerns with a Matron or a member of the Infection Prevention & Control Team.
