The Trust currently has 3 open requirement notices and the CQC action plan supports improvement in these areas. The requirement notices are as follows:

- Regulation 12 HSCA (RA) Regulations 2014 Safe care and treatment
- Regulation 18 HSCA (RA) Regulations 2014 Staffing
- Regulation 16 HSCA (RA) Regulations 2014 receiving and acting on complaints

The CQC action plan was developed in consultation with the relevant directorates and corporate departments and was submitted to the CQC on 18<sup>th</sup> May.

There are a total of 29 actions on the CQC action plan and evidence and updates are requested from the responsible person / departments 1 week prior to the due date to ensure that evidence and feedback can be obtained in advance of the action becoming overdue.

### 4. Maintaining High Standards

The purpose of the Maintaining High Standards Group is to address any areas of non-compliance identified through internal, external and / or regulatory compliance reviews. The group will enable a rapid response and can evidence on the action log any actions undertaken.

#### The programme of work includes:

- Review of key findings from mock CQC inspections and actions planned
  - Thirteen wards have been inspected since the programme began and an early morning out of hours inspection was also carried out. Eight wards were rated as 'requires improvement' and five wards were rated 'good'. Each area maintains their own action plan to address the areas of concern.
  - Key issues arising from the mock inspections include environmental (estates issues), clutter and storage, use of personal protective equipment and medication security. Positive patient feedback was obtained.
- The issues raised during the recent MEHT CQC inspection have been shared with the group and action taken accordingly to seek assurance of processes at SUHFT.
- Assurance has been sought regarding bank and agency staff induction and ward security out of hours.
- CQC information/data requests for MEHT have been shared and checks are being carried out to ensure similar information/data is available at SUHFT.
