

May 2012

*1) How many disciplinary procedures have been undertaken against NHS staff in your organisation in the last three financial years for:*

*(a) accessing inappropriate websites at work (please break down how many of these were for website with indecent images)*

None.

*(b) employee fraud (please give details of the total cost of this fraud)*

Number of cases of employee fraud = 4. The total cost of fraud is £187.00 (this is the cost of 2 cases, the cost for the remaining 2 cases are not quantifiable).

*2) Please provide the names of all full-time union officials employed by your organisation in the last three financial years, their pay band, and the unions they represent.*

We have no full time union officials. We have interpreted your question as meaning how many local union officials have full time release for trade union duties.

*3) How many documents intended for use by NHS employees have been printed in languages other than English in your trust in each of the last three financial years; what other languages these documents have been printed in; and what the total cost has been for the reprints.*

We have no records of any documents published in other languages for members of staff.

The only documents that may be produced in different languages are either patient information leaflets or menus produced by Medirest for patient catering.
